

Liberatarians Adopt 'Plank'

The Libertarian Party's national convention in San Francisco adopted a "plank" for children's rights, condemned the activities of Anita Bryant "and those who emit an air of hatred" and opposed the mandatory payment into the Social Security system.

Local people who attended the convention were Don Atkinson, regional chairman from Santa Cruz; Bill Anderson of Capitola, and Kathy Merrick of Aptos.

The party, whose position is for individual rights and less government, adopted the position in the convention it is unfair for government workers to be able to "opt out" of the Social Security system while private workers may not.

The local Libertarian Party office is at 2046 N. Pacific Ave., telephone 429-1822.

Help For Felton Bridges

The replacement of three bridges and the widening of two bridges between Felton and Ben Lomond along Highway 9 is on the mind of the California Department of Transportation (CALTRANS).

In five or six years, CALTRANS is proposing to replace Ben Lomond's two twin bridges and the Fall Creek bridge, and to widen the two Brackney bridges north of Felton, CALTRANS Information Officer Robert Halligan said.

In the meantime, CALTRANS is proposing a reduction of the allowable vehicle weight load on Ben Lomond's twin bridges. A public hearing on this proposal will be held on Wednesday at 7:30 p.m. at the San Lorenzo Valley High School Library.

The two bridges are not a hazard, Halligan insisted, but their structures have deteriorated with age and CALTRANS is proposing a reduction from 40 to 35 tons for trucks and trailers, and from 36 to 33 tons for semi-trucks and trailers.

After the public hearing on the weight reduction proposal, CALTRANS will present state findings on the condition of the five bridges proposed for changes along Highway 9, Halligan added. The formal proposal for these changes will be made at another public hearing in the near future.

The widening of the bridges would involve widening the present two lanes and not adding more lanes, Halligan explained. While the bridge work was being done, temporary bridges would be constructed to keep traffic flowing, he added.

Scotts Valley Hires Engineer

Bob Rockett, 31, recently was hired as Scotts Valley's fulltime associate engineer. His job is to make sure developers understand city building regulations, street improvement (Ordinance 60) regulations and checking to see that all facilities are installed in new buildings.

Rockett lived in Scotts Valley until last year when he moved to Morgan Hill. He now is moving to Aptos with his family. He previously worked for two and a half years for the Santa Clara County Transportation Agency as an assistant civil engineer.

Marello Trustees

New Marello Preparatory High School trustees were elected at a recent board meeting. They are, from left, Gordon Agrella, Richard O. Driscoll Jr., and re-elected Trustees Mrs. Ralph Allison and Albert Filice. Filice is president, Dominick Sacello is vice president, and Mrs. Allison is secretary.
